We Give Thanks to You for 20 Years...And Counting

Dear Friend,

We are proud to begin our 20th fiscal year! We give thanks to every single supporter and client. Working together in Austin, we have empowered thousands of people through technology. After two decades of service, we are grateful that we're still able to provide community members free access to technology and computer training. And now with Google Fiber in the community, more residents than ever can become broadband adopters.

Every day, we see how your support is helping to change lives through technology. Allow our clients to say it best,

"Emily's help with my resume and finding jobs online really made a difference. She also helped me prepare for the AFN Employ and Empower Job Fair. A week later, I got a job!"-- David, Austin Resource Center for the Homeless student

"Recently I have been introduced to the computer world at full force! Over the past two weeks I have used the computer more times than over the past ten years. I owe it all to one thing... availability!" -- Mitch Dickerson, Austin Free-Net client and new blogger.
